 Product zone: LED & Green Lighting  
 Booth No: 5B-C02  
 Website: [www.azelite.com](http://www.azelite.com)

### iSwitch

- Utilizing powerline technology, the iSwitch allows easy set up and installation of lightings in homes and offices without the fuss of rewiring.
- iSwitch can control more than one lighting fixture and is programmable to your liking. Different lighting scenes, such as office mode, conference mode and presentation mode, can be pre-set to create ambiances to suit varying environments.

### 4-foot T8 LED Emergency Lighting

- Works with LEP50H Emergency Lighting Control Gear
- During normal operation, AC voltage from the main electrical supply will be "passed through" and supplied directly to the LED tube. The product will operate at 100% brightness with no degradation in efficiency or power factor.
- During AC power failure, DC voltage from the battery will supply to the LED tube. The product will function as emergency lighting and operate at a reduced power mode and dimmed to pre-determined brightness.
