Product Photos and Exhibitor Information	Product Description
<p data-bbox="98 398 114 430">1</p>  <p data-bbox="309 801 580 837"><b>NanoGrid Limited</b></p> <p data-bbox="185 882 708 990">Product Zone: LED &amp; Green Lighting Booth No. 5B-C33 Hong Kong</p>	<p data-bbox="772 434 1461 506"><b>Nanoleaf Bloom</b> <i>“First light bulb dim without Dimmer Switch”</i></p> <ul data-bbox="772 546 1497 1025" style="list-style-type: none"><li>• The Nanoleaf Bloom is the world’s first light bulb that dims without a dimmer switch.</li><li>• The efficient light bulb with a special dimming feature built in, allowing any regular household light switch to adjust its brightness, so as to maximise energy saving in any room of the household.</li><li>• By dimming the light bulb down, the energy saving is exponential.</li><li>• At full brightness the Nanoleaf Bloom uses 10 watts of electricity. At half brightness it only uses 2.5 watts.</li><li>• In night mode it only uses 0.5 watts of electricity.</li></ul>

2

**Dreambox (HK) Limited**

Product Zone: Household Lighting  
Booth No. 3CON-037  
Hong Kong

**Medusa**

- The design of this lamp is inspired by jellyfish in Palau Jellyfish Lake. The jellyfish there float to the water surface for photosynthesis around noon. A dense group of jellyfish in the water, twinkling golden glow, is dazzling and spectacular.
- We hope to bring this kind of tranquil, beautiful sensation into people's homes, which is the initiative of the design for this series.
- Our products are mainly made of bamboo and glass, both are relatively environmentally friendly - bamboo can naturally break down with a short life cycle; the main component of glass is sand which can also be recycled.
- We hope the product can convey environmental protection message and low carbon life attitude.

3

**CLEDoS International Ltd**

Product Zone: Hall of Aurora  
Booth No. 1CON-020  
Hong Kong

**airLED bulb**

- The new airLED innovation. The light bulb in the hand shows that our LED grid is lit up and you can still hold it in your hand as it does not get too hot.
- The bulb is very light weighted compared to any other LED bulb on the market and it uses fewer raw materials for production than the average LED since it is just the grid without a heat sink.

4

**Mrc Technology International Limited**

Product Zone: Hall of Aurora  
Booth No. 1B-E26  
Hong Kong

**MRC Golden Master**

- MRC Golden Master High CRI (Color Rendering Index) Series lamps, create a classical, romantic and attractive illuminating effect with full range of LED products.
- With the absolutely same chromaticity coordinates of color as Sodium lamp and the unique technology, Golden Master's lighting performs an excellent penetration rate in the rainy dust and fog weather with great CRI and energy-saving.
- Golden Master series are applicable to all-weather and all applications, e.g. Garden, Street, Public area, Industry etc.

5

**AL Global Solutions Ltd.**

Product Zone: Hall of Aurora  
Booth No. 1C-A29  
Hong Kong

**JÄNI**

- Besides using real Calcite stones, the stone of JÄNI's designed lighting, which can be activated independently from the top bulbs, can be lit through the use of built-in LEDs.
- This is the first prototype of this product and a touch sensor is incorporated to switch the lamp on/off in different stages by touching the metal plate.
- As a final touch, the lamp shade is made with 100% real silk on the outer face and cotton on the inner face.

6

**Super Trend Lighting (Group) Limited**

Product Zone: Hall of Aurora  
Booth No. 1C-F02  
Hong Kong

**Filament LED bulb**

- This is an innovative filament type LED bulb which is designed with classic GLS, candle and reflector shape.
- It delivers natural lighting distribution that is more similar to a normal incandescent than the other LEDs.
- With its special structure, it offers high luminous efficiency which reaches the highest energy efficiency class of A++.
- This product is also safety and compliant with ERP, CE, Reach and ROHS.

7

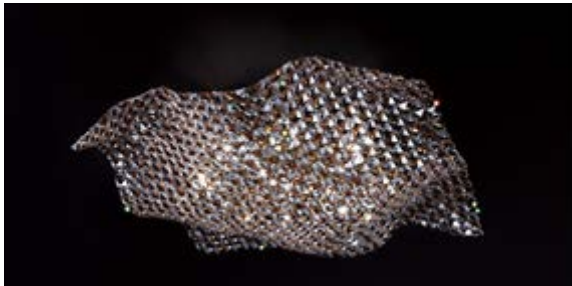

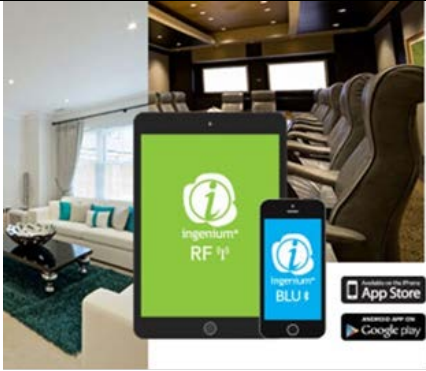

**Inno Casa Holdings Limited**

Product Zone: Household Lighting  
Booth No. 3B-A15  
Hong Kong

**Standalone digital dimmer**

- Standalone digital dimmer is special design for dimmable LED fixtures. Smooth dimming curve driven by PWM signal.
- Used trailing edge phase control technology is suitable for electronic transformer, electronic low voltage ballast and most dimmable LED fixtures.
- User friendly functions such as restore output level, delay auto off, adjustable dimming fade time can be controlled by internal MCU.
- It is suitable for residential, restaurant, hotel guest room or small office application.

<p>8</p>	 <p><b>L-Galaxy Co., Ltd.</b></p> <p>Product Zone: Commercial Lighting Booth No. 3D-C28 Hong Kong</p>	<p><b>L-Galaxy LED EM Tube</b></p> <ul style="list-style-type: none"> <li>• L-Galaxy LED EM Tube compliance with HK FSD requirement PPA/104(A).</li> <li>• It consists of all functions and components of a complete self-contained luminaires Emergency Lighting System.</li> <li>• No extra installation is needed, just put the EM tube on the bottom and the installation is completed.</li> <li>• The installation time and cost is surely saved. On the other hand it is designed in modular design, that's really easy to replace the faulty parts.</li> </ul>
<p>9</p>	 <p><b>Orizontte Iluminacion Co., Ltd.</b></p> <p>Product Zone: Hall of Aurora Booth No. 1E-D02 Hong Kong</p>	<p><b>Scarf in Fire</b></p> <ul style="list-style-type: none"> <li>• To portray the fragile beauty of a scarf flying and flowing in the air, a glittering array of crystal beads bedecks the flowing sheets of glitter and glitz.</li> <li>• The radiant handcrafted crystal beads sparkle brilliantly and evoke sentiments of delicate wonder and charm.</li> <li>• Like clouds shifting in the air, the scarf may change shape like it is bathing in the wind.</li> </ul>
<p>10</p>	 <p><b>Neonlite Electronic &amp; Lighting (HK) Limited</b></p> <p>Product Zone: Hall of Aurora Booth No. 1D-B02 Hong Kong</p>	<p><b>INGENIUM Smart Lighting Solutions</b></p> <ul style="list-style-type: none"> <li>• INGENIUM BLU is ideal for those looking for an affordable Bluetooth controlled LED retrofit. Suitable for small areas with up to 10 metres of coverage, the functions include programmed scene setting, pre-set of time etc.</li> <li>• INGENIUM RF Solution is a scalable RF-based dimming solution which fit for larger installations.</li> <li>• The Solutions offer guaranteed compatibility with the latest in MEGAMAN LED lamp technology.</li> </ul>

**Berot MX, S.A. de C.V.**

Product Zone: Household Lighting  
Booth No. 3C-C12  
Mexico

**Pixelate**

- It combines its movement and shape with modern chrome finishing and OLED lights, creating an unique element.
- It is hand-made, combining several weaved layers of stainless steel, resulting in a surface of randomly mixed light and metal pixels.
- Pixelate takes maximum advantage of the thin GL350 Philips Lumiblade OLED Panel (only 3.3 mm) featuring an ultra-flat design.
- Pixelate can change its form, shape and size under request, to adapt itself for special lighting projects.
- Its design also lends well to combine more than one PIXELATE to create unique scenarios.
