

The 4th Hong Kong Lighting Design Competition 第四屆香港燈飾設計比賽
Open Group Winning Entries 公開組得獎作品

CHAMPION 冠軍

作品名稱：**Sunny Box**

得獎者：**OOSH DESIGN**

在這個能源短缺的時代，善用資源成爲了我們首要的任務。

Sunny Box 是一顆嶄新的太陽能電燈，白天放在窗外，利用頂上太陽能板吸取陽光而轉化爲能量。當夜間時，燈便會亮起來，光透過中間摺疊出來的層層環保紙，散放出柔和的光線給予我們另一番的舒適感覺。

另外，它能夠像窗簾式般很容易地隨時打開伸展，掛在屋內好像家具般柔合其中。

Sunny Box 不單只是給予光的效能，更顯現嶄新獨特的太陽能產品，照亮您的未來。

Title of Design: Sunny Box

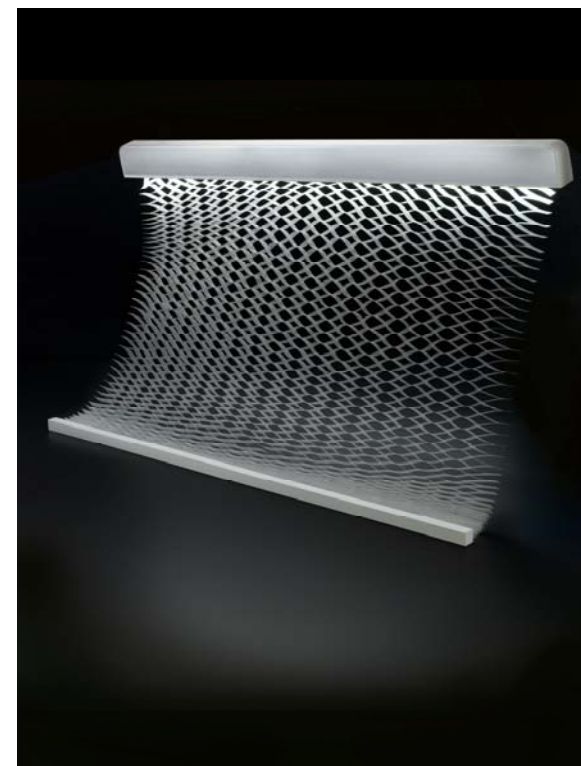

Winner: OOSH DESIGN

In the era of energy shortage, energy saving has become our first and foremost mission.

The Sunny Box would provide you with a new experience of solar lighting. On the one hand, it acts as a roller blind during the day. On the other hand, it collects and stores the solar energy. In the night time, the panel glows through the diffuser which is made of recycled paper.

Besides, it can be removed from the window and be used elsewhere given its superior mobility. Since the diffusers can be changed into other materials, this can enhance diversity of Sunny Box's application.

The Sunny Box not only illuminates your home but also provides you with a new solar experience.

1ST RUNNER-UP 亞軍

作品名稱：**連繫**

得獎者：**陳偉灝**

人的連繫是未來的必然的元素。人與人的聯結，憧憬著美好的將來；人與人的連繫好比光源和生活的關係一樣，人因生活而創造了光源，而光源也優化了我們的生活；連繫就是由這概念而來的。

Title of Design: Nexus

Winner: Chan Wai Ho

Human connection is vital for building up a fruitful and joyful future. Bonding between human beings resembles the relationship between life and light. With luminaries, people always feel peaceful and warm. It improves our living and contributes to a closer human connection. This inspires my design – Nexus.

2ND RUNNER-UP 季軍

作品名稱：**光之雕塑家**

得獎者：**鄭林室內建築設計有限公司**

作爲一個室內設計師，我們總是要取得平衡，這就是“實用與美觀”！我相信產品設計也是相同的，這盞燈直達到此目標！

爲了鼓勵人們重新思考自己的空間和時間，我使用了抽象的形式來表達。光的雕塑家形容光線可透過細緻的狹縫通過，同時亦被受控制！這盞燈是多功能的，可懸掛或坐在地板上，向用戶提供靈活的使用。

Title of Design: The Sculptor of Light

Winner: TiRon Interior Architecture Limited

Interior designer always have to balance between "Practicality and Beauty"!

I believed this principle should be the same when it comes to Product Design, and this lamp has achieved this goal!

I have used the abstract form to describe Space / Time, which encourage people to re-think their own space and time. In our design, we allow light to pass through those dedicated slots and in fact being controlled too! This lamp is multi-functional that can be hanged or sat on the floor, providing users flexibility.
